

Rio Cristal Resources Corporation

Social & Environmental Policies

Community Relations

Establishing and maintaining effective and respectful relationships with the communities in the areas where we operate is a fundamental objective of Rio Cristal Resources. To obtain effective community relations Rio Cristal has developed a series of policies that are based on:

- Respecting the beliefs and values of the people in areas where we operate.
- Recognizing and working with community authorities and representatives.
- Supporting the sustainable development of the communities through measurable actions as established in the Company's Community Relations Plan.
- Being transparent, just, and equitable when contracting workers and obtaining goods and services from communities.

Rio Cristal Resources will work with all its stakeholders to ensure a social environment based on transparency and mutual respect.

Environmental Stewardship

At Rio Cristal Resources we recognize the impact that our activities and decisions can have on the environment and have diligently worked to integrate sound environmental policies and practices into our Company and our decision making system. Through proper management, environmental risks can be mitigated to ensure that future generations can benefit from the environmental resources that exist today.

Our environmental policies are based on:

- Upholding and exceeding existing environmental laws and standards.
- Maintaining transparent dialogue with people affected by our activities and include their views into our decision making.
- Ensuring that our employees and contractors understand and fulfill their environmental obligations.
- Integrating sound environmental practices into all areas within the Company.
- Seeking to continually review and improve our environmental performance.
