These unaudited condensed consolidated interim financial statements follow the same accounting policies and methods of application used in the Company’s audited consolidated financial statements as at and for the year ended March 31, 2025. The Board of Directors authorized these condensed consolidated interim financial statements for issuance on February 26, 2026.

In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

d) Use of judgment and estimates

In preparing these condensed consolidated interim financial statements, management has made judgment and estimates that affect the application of the Company’s accounting policies and the reported amounts of assets, liabilities, income and expense. Actual amounts incurred by the Company may differ from these values.

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 *Presentation and Disclosure in Financial Statements*, which will replace IAS 1, *Presentation of Financial Statements* aims to improve how companies communicate in their financial statements, with a focus on information about financial performance in the statement of profit or loss, in particular additional defined subtotals, disclosures about management defined performance measures and new principles for aggregation of information. IFRS 18 is accompanied by limited amendments to the requirements in IAS 7 *Statement of Cash Flows*. IFRS 18 is effective from January 1, 2027. Companies are permitted to apply IFRS 18 before that date. The Company is currently assessing the impact of the new standard.

Amendments to IFRS 9 and IFRS 7

The amendments include the clarification of the date of initial recognition or derecognition of financial liabilities, including financial liabilities that are settled in cash using an electronic payment system. The amendments are effective for annual periods beginning on or after January 1, 2026, with early application permitted. The Company is currently assessing the impact of the new standard.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, acquire or dispose of assets or obtain debt financing. In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. In order to maximize ongoing development efforts, the Company does not pay out dividends.
