1. Nature of Operations

Rio Cristal Resources Corporation ("Rio Cristal" or the "Company") was incorporated on November 24, 2006 under the name "Rio Cristal Zinc Corporation" and is organized under the laws of British Columbia, Canada. In June 2009, the Company changed its name to "Rio Cristal Resources Corporation". The Company's head office is located at Suite 555, 999 Canada Place, Vancouver, BC V6C 3E1 and the registered and records office is located at 200 Burrard Street, P.O. Box 48600, Vancouver, British Columbia, V7X 1T2. The condensed consolidated interim financial statements as at September 30, 2014 consist of Rio Cristal and its two wholly owned subsidiaries: Cerro La Mina Cayman Ltd. and Rio Cristal Zinc Cayman Ltd. which are both organized under the laws of the Cayman Islands. On April 7, 2014 Cerro La Mina S.A., Rio Cristal's wholly owned subsidiary, was dissolved.

The Company is in the business of acquiring and exploring mineral properties located in Peru. The Company is publicly traded with shares listed on the TSX Venture Exchange (TSX-V) and the Bolsa de Valores de Lima ("BVL") in Peru.

The Company consolidated its share capital on a one new for ten old (1:10) basis on September 29, 2014. Accordingly, all common share, stock option, warrant, and per share awards have been retroactively restated to reflect this consolidation. In addition, the Company consolidated its share capital on a one new for ten old (1:10) basis on July 31, 2013. Accordingly, all common share, stock option, warrant, and per share awards have been retroactively restated to reflect this consolidation.

The Company has focused much of its resources in the past on the Bongará zinc project, located in Northern Peru. The Company had an option to acquire 100% interest in the project by making cash payments, issuing common shares of the Company, or a combination of both. The Company has allowed this option to lapse and therefore does not have any active exploration projects.

The business of mining and exploration involves a high degree of risk and there can be no assurance that exploration programs will result in profitable mining operations. The Company's prospective activities in Peru are subject to the impact of changes in legal, tax and regulatory regimes at the national level and changes in community relations, labor and political issues at the local level. While the Company actively monitors all such changes and makes plans accordingly, factors beyond the Company's control could adversely impact its opportunities for operations in Peru. The Company believes that the current conditions in Peru are stable and conducive to conducting business. The Company's current and future mineral exploration and mining activities could be impacted by adverse political or economic developments. The adverse developments may include the imposition of unfavourable government regulations on foreign investment.

2. Going Concern

These condensed consolidated interim financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to meet its commitments, continue operations and realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. Several adverse conditions cast significant doubt on the validity of this assumption. The Company has incurred losses since inception and has an accumulated deficit of $24,130,871 at September 30, 2014. The Company has limited resources, has no source of operating cash flow, has a working capital deficit at September 30, 2014 of $1,504,687 and has no assurances that sufficient funding will be available to meet its administrative overhead and conduct further exploration and development on new properties, should any new properties be acquired.

The Company's ability to continue as a going concern is dependent upon its ability to obtain the necessary financing to meet its requirements. However, there can be no assurance the Company will be successful in these initiatives. These condensed consolidated interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption inappropriate, and these adjustments could be material.

3. Basis of Preparation

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). Accordingly, they do not include all of the information and notes to the consolidated financial statements required by IFRS for complete financial statements and should be read in conjunction with the Company's most recent audited consolidated financial statements. These unaudited condensed consolidated interim financial statements follow the same accounting policies and methods of application used in the Company's audited consolidated financial statements as at and for the year ended March 31, 2014. The Board of Directors authorized these financial statements for issuance on November 30, 2014.

4. Significant Accounting Estimates and Judgments

The preparation of the condensed consolidated interim financial statements requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated interim financial statements. The significant estimates and judgments are unchanged from those disclosed in the Company's annual financial statements for the year ended March 31, 2014.

5. Adoption of New Standards and Interpretations, and Recent Accounting Pronouncements

a. New accounting policies adopted during the period

Effective January 1, 2014, the Company adopted IAS 36, *Impairment of Assets*, which provides for additional disclosures that may be required in the event the Company recognises an impairment loss or the reversal of an impairment loss. The adoption of IAS 36 did not result in any changes in the disclosure in the Company's financial statements.

b. New accounting standards, amendments and interpretations

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB or IFRIC. Some updates that are not applicable or are not consequential to the Company may have been excluded.

IFRS 9, *Financial Instruments: Classification and Measurement* is the first part of a new standard on classification and measurement of financial assets that will replace IAS 39, *Financial Instruments: Recognition and Measurement*. IFRS 9 has two measurement categories: amortized cost and fair value. All equity instruments are measured at fair value. A debt instrument is measured at amortized cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest.

(Expressed in US dollars)

Otherwise it is measured at fair value through profit or loss. The IASB has deferred the mandatory effective date for annual periods beginning on or after January 1, 2015 and has left it open pending the finalization of the impairment and classification and measurement requirements. The Company has not yet assessed the impact of this standard on its financial reporting.

6. Financial Instruments

a. Categories of financial instruments

	September 30, 2014	March 31, 2014
Financial assets		
Loans and receivables		
Cash and cash equivalents	$ 3,249	$ 6,613
Amounts receivables	2,099	727
	$ 5,348	$ 7,340
Financial liabilities		
Financial liabilities at amortized cost		
Accounts payable and accrued liabilities	$ 1,003,021	$ 425,503
Due to related parties	-	604,439
Loans payable	507,014	374,490
Fair value through profit or loss		
Derivative liability - warrants	-	1,328
	$ 1,510,035	$ 1,405,760

b. Fair value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities;
- Level 2 – Inputs other than quoted prices that are directly or indirectly observable for the asset or liability; and
- Level 3 – Inputs that are not based on observable market data.

	September 30, 2014	March 31, 2014
Level 2		
Derivative liability - warrants	$ -	$ 1,328

The carrying values of cash, amounts receivable, accounts payable and accrued liabilities, due to related parties and loans payable approximate their fair value because of the short-term nature of these instruments.

7. Resource Property Costs

Bongara Project, Peru

By an agreement in 2007 the Company acquired 100% of Cerro La Mina S.A. ("CLM") which held the right to acquire 100% of the rights to the Bongara Project in the Amazonas Region of Peru. CLM was acquired from a company controlled by the founding shareholder of the Company and, in exchange, the Company issued 50,000 common shares to the founding shareholder. Per the agreement, no more than 25,000 of the shares were to be released until the Issuer had completed a preliminary economic assessment as defined in National Instrument 43-101 in respect of the Project and met certain other conditions. As at March 31, 2014 the Company had released 25,000 shares from escrow. No value was attributed to the remaining 25,000 shares at March 31, 2014 due to the performance conditions described above. Management decided not to renew its option and as a result the acquisition costs related to the project were written off as of March 31, 2013. Pursuant to the property lease agreement, the remaining 25,000 shares that have not been released from escrow will be cancelled.

On April 7, 2014, the subsidiary, Cerro La Mina S.A., was dissolved.

8. Derivative Liability – Warrants

Warrants issued in private placements that have an exercise price denominated in a currency other than the Company's functional currency meet the definition of a derivative liability and are recorded as a financial liability and are marked-to-market each period. Subsequent changes in the fair value of the warrants will be recognized as gains or losses in the statement of loss and comprehensive loss until they are fully exercised.

On January 21, 2013, a total of 62,091 warrants (giving effect of the share consolidation (note 9)) were granted as part of units in a private placement transaction (note 9). These warrants will expire on January 20, 2015. Of the total granted, 60,291 warrants have an exercise price denominated in Canadian dollars and are accounted for using marked-to-market accounting policy. The remaining 1,800 warrants were granted to agents for services provided for a capital raising transaction and have an exercise price denominated in Canadian dollars but are not classified as a financial liability of the Company. The initial fair value of these warrants have been recognized as a share issuance costs and included in contributed surplus.

	Warrants Outstanding	Weighted Average Exercise Price (Cdn$)
Balance – March 31, 2014 and September 30, 2014	**62,091**	**$10.00**

The changes in the fair market value of the financial liability of the warrants for the six months ended September 30, 2014 and the year ended March 31, 2014 were as follows:

	Derivative liability - warrants
Derivative warrant liability – March 31, 2013	$ 71,071
Fair market value change	(69,743)
Derivative warrant liability – March 31, 2014	$ 1,328
Fair market value change	(1,328)
Derivative warrant liability – September 30, 2014	**$ -**

(Expressed in US dollars)

9. Capital

a. Authorized share capital

At September 30, 2014, the authorized share capital comprised of an unlimited number of common shares. The common shares do not have a par value and all issued common shares are fully paid.

b. Reconciliation of changes in share capital

	September 30, 2014			March 31, 2014		
	Number of Shares		Amount	Number of Shares		Amount
Balance, beginning of period	1,725,916	$	20,478,240	1,554,696	$	7,625,668
Shares issued for mineral properties	-		-	171,220		500,000
Share consolidation – effect of rounding	(7)		-	-		-
Balance, end of period	1,725,909	$	20,478,240	1,725,916	$	20,478,240

The above table and information contained in these condensed consolidated interim financial statements (unaudited) include the impact of the two share consolidations described below.

On September 29, 2014, the Company consolidated its share capital on a one new for ten old (1:10) basis. Accordingly, all common share, stock option, warrant and per share awards have been retroactively restated to reflect this consolidation.

On July 31, 2013, the Company consolidated its share capital on a one new for ten old (1:10) basis. Accordingly, all common share, stock option, warrant and per share awards have been retroactively restated to reflect this consolidation.

On June 14, 2013 171,220 shares were issued relating to the option payment on the Bongara property owing on March 15, 2013.

On January 21, 2013, the Company issued 60,291 units as part of a non-brokered private placement for total proceeds of $237,994. The units were issued in two parts. The first is for 44,291 units (the "First Units") of the Company at the price of Cdn$3.50 per First Unit, each First Unit consisting of one common share and one non-transferable warrant. The second involved an issuance to certain Directors and an officer of 16,000 units (the "Second Units") at a price of Cdn$5.00 per Second Unit, each Second Unit consisting of one Share and one non-transferable warrant.

Each first Warrant entitles the holder to purchase one additional Share (a "Warrant Share") at an exercise price of $6.00 for the first year and $10.00 for the second year. Each second Warrant shall entitle the holder to purchase a Warrant Share at an exercise price of $10.00 for two years.

In addition, commencing on the date that is four months and one day after the closing of the private placement, if the closing price of the Company's common shares on the TSX-V, is at a price equal to or greater than $12.00 for a period of ten (10) consecutive trading days, the Company will have the right to accelerate the expiry date of all Warrants by giving written notice to the holders of the Warrants which will then expire on the date that is not less than thirty (30) days from the date of the notice.

As part of the non-brokered private placement, a finder’s fee was paid consisting of: (i) a cash commission of $4,254; and (ii) the issuance of 1,800 Second Units (the “Finder’s Fee Units”).

(Expressed in US dollars)

c. Share Purchase Options

The Company has established a share purchase option plan whereby the board of directors may, from time to time, grant options to directors, officers, employees or consultants. Options granted must be exercised no later than five years from the date of grant or such lesser period as determined by the Company's board of directors. The exercise price of an option is not less than the closing price on the TSX-V on the last trading day preceding the grant date. Options begin vesting on the grant date based on a schedule outlined in the share purchase option plan. The option plan provides that the aggregate number of shares reserved for issuance under the plan which may be made subject to options at any time and from time to time (including those issuable upon the exercise of pre-existing options) shall not exceed 10% of the total number of issued and outstanding shares, on a non-dilutive basis, as constituted on the grant date of such options. At September 30, 2014 a total of 146,091 options remain reserved under the Plan exclusive of the 26,500 options outstanding.

i. Movements in share options

The changes in share options during the three and six months ended September 30, 2014 and the year ended March 31, 2014 were as follows:

	Three and six months ending September 30, 2014		**Year ending March 31, 2014**	
	Number of options	**Weighted average exercise price (in CDN$)**	**Number of options**	**Weighted average exercise price (in CDN$)**

All options outstanding at September 30, 2014 relate to former officers and directors of the Company and will expire 90 days after August 28, 2014.

(Expressed in US dollars)

10. Related Party Transactions

Balances and transactions between the Company and its subsidiaries have been eliminated on consolidation. Details of the transactions between the Company and other related parties are disclosed below.

a. Trading transactions

In August 2014, amounts due to former related parties totaling $611,141 were purchased by an independent third-party (the "Debt Purchase"). Prior to the Debt Purchase, at June 30, 2014 due to related parties consisted of $611,141 (March 31, 2014 - $604,439) owing to individuals or companies whose officers, directors or partners were also officers or directors of the Company. Of the amount at June 30, 2014, $109,051 were loans from Directors and Officers of the Company. These loans are unsecured, have a term of one year, and incurred annual interest of 6%. The remaining deferred salaries and services payable of $491,926 as at June 30, 2014 (March 31, 2014 - $ 487,376) was unsecured, non-interest bearing and due on demand.

Historically, certain of the Company's officers and directors render services to the Company as sole proprietors or through companies in which they are an officer, director or partner.

	Nature of transactions
DuMoulin Black (ended December 30, 2013)	Legal fees
